- ✓ Use the information gathered to choose and apply Healing Touch techniques for your client's intention for healing.
- ✓ Document the intake interview and healing session using standardized forms.

The importance of **client agreement for services and professional ethics** in practice are explored. Learn and experience **additional Healing Touch techniques and sequences** intended for deeper healing. Whether you're a seasoned practitioner or new in your journey, this class offers an incredible opportunity for growth, transformation, and personal development.
